SUMMARY

Graduating from a 4-year rotational corporate study program and several extracurricular activities I've found joy in creating value for people by creating digital products. Analytical/structured person with a hands-on down to earth personality that loves to learn. Learning about emerging technologies and how they create value/impact for the consumer inspires me.

EXPERIENCE

Student Year 3 | Jose Rizal University | Mandaluyong, Metro Manila | July 2025 - November 2025

- Presented research findings on emerging trends in general education during academic seminars, highlighting potential curriculum enhancements to faculty panels.
- Formulated comprehensive study resources and collaborative review sessions for peers in core technical subjects, strengthening collective academic performance and engagement across the student cohort.

Student Year 2 | Jose Rizal University | Mandaluyong, Metro Manila | August 2024 - May 2025

- Assisted in organizing campus-wide academic events by coordinating schedules, securing resources, and liaising with faculty to support student engagement initiatives.

Student Year 1 | Jose Rizal University | Mandaluyong, Metro Manila | August 2023 - May 2024

- Participated in campus-wide academic seminars and workshops, enhancing foundational knowledge in general education and technical subjects in alignment with university objectives.
 - Contributed to collaborative group projects by applying technical concepts and effective communication, reinforcing classroom learning and supporting academic outcomes.
-

PROJECT

PARS: Predictive Analytics and Recommender System for University Accreditation Readiness |

Jose Rizal University | October 2025 - November 2025

- This website presents PARS, a Predictive Analytics and Recommender System designed to enhance university accreditation readiness. It supports institutions like Jose Rizal University in assessing compliance with ISO 21001 and ISO 9001 standards by identifying performance gaps and offering data-driven recommendations. The platform aims to streamline accreditation processes, promote continuous quality improvement, and improve stakeholder satisfaction in higher education.
 - Engineered a predictive analytics and recommender platform that facilitated higher education institutions in proactively addressing accreditation requirements, enabling targeted gap analysis and delivering actionable insights to support ongoing quality enhancement.
-

EDUCATION

Bachelor in Science in Information Technology | Jose Rizal University |

80 Shaw Blvd, Mandaluyong City, 1552 Metro Manila | 2027 | 1.5
